

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Last week when we talked about the many changes and controversy over the voter registration system in Texas effecting the number of people that were qualifying themselves to vote, we were not aware of the latest mixup.

It seems for a few days last week there was word going around that people over 60 years of age would have to register along with everyone else, even though they lived in a city under 10,000 or in a rural area.

Attorney General Crawford Martin released a report later in the week that this was not true for this year.

The amendment on the poll tax and voter registration that the District Court has ruled to be invalid states that everyone would have to register but it does not go into effect until Feb. 1, 1968.

So, even if the Texas Supreme Court rules that the amendment is valid we will still have more confusion when it comes time to register next year.

But at least for this year things are the same as always except that you just do not need money. If you have paid your poll tax in the past you need to register now, and if you were exempt in the past, you are still exempt.

The way that registrations are lagging over the state you get the impression that people feel that if it is free it must not be worthwhile. If this year is any indication of the trend in the years to come it would seem that the purposes of eliminating the poll tax have work just backwards to what was intended.

Please qualify yourself to vote by registering — even though it is free this year it is still just as valuable to you as a citizen as it ever was.

I would suspect that Governor John Connally is still trying to figure out what is happening in regard to this matter of permitting cities to vote themselves a sales tax.

He started out opposed to the whole idea but then the mayors from over the state convinced him that this was the only answer to their problem. Since it would require each city to decide by vote of the local citizens whether they wished to impose a sales tax on themselves he added it to his program for the state.

Now comes the joker. The legislators from the larger cities are all coming out in opposition to the idea.

It makes you wonder what is going on at the city level. Both the mayors and the legislators are elected by the same people but they seem to be headed in different directions.

The oddest part about the whole thing is that the matter would ultimately be decided by the voters anyway.

But, this is all part of the life of a politician.

Mrs. Craig and I attended the Bob Cooke Appreciation Dinner in Abilene Monday honoring our old friend on his retirement as farm editor from the Abilene Reporter — News.

It was an impressive occasion and made you very proud to be a West Texan for where else would nearly 300 people take time out to honor a friend.

We have known Bob since back in 1950 when we worked with him on the Reporter — News and we have never known of anyone more deserving of the plaudits that he received Monday evening from his many friends from all over West Texas, (the Big Country as some call it, although we have never been very impressed with this title for our area).

We feel the whole evening was very embarrassing for Bob because he is the type that always is very quite and would be the hardest person of all to find in a crowd.

Being of a very gentle nature, Bob was the only one in a rodeo press box that would be rooting for the calf in a roping contest.

I am sure that Bob has many friends in this area that join with us in wishing him the best of everything in his retirement. He will be missed over the area whenever farmers, ranchers, FFA and 4-H youths gather because during the past 15 years you could always count on him being with them whenever they got together.

GIRLS GIVE TO MOD — Peggy Jones gives \$30 to Leldon Clifton, chairman of the March of Dimes drive now underway. Peggy and the other girls were active in Camp Fire Group led by Mrs. L. O. Hughes while in Junior High School. The girls, now freshmen, earned the money with rummage sales and bake sales. The group includes, left to

right, middle row, Jan Young, Debby Hallmark, Rochelle Kincaid; back row, Mrs. Hughes, Patricia Feagan, Linda Witt and Kathleen LaFemina. The Mothers March will be held Tuesday from 5 to 7 p.m., according to Clifton. Residents are asked to have their porch lights on.

EDGED OUT BY C-CITY—

Pipers to Host Stamford Friday, Need Win to Stay In District Race

The Pipers will be trying to climb back into race for the District championship Friday night when they host Stamford here. The Pipers were knocked from a share of the lead here Tuesday night when they were edged out by Colorado City, 55-54.

The Piperettes, who fell behind Winters Friday night in their district race when they lost 42-37, are taking this week off. They and the Pipers will travel to Haskell Tuesday evening.

The Pipers closed out the first half of their district schedule Tuesday night with a 3-2 record, placing them one game behind Stamford and Colorado City and tied with Anson. The Piperettes are 2-1 at the half-way mark, one game behind Winters.

In their game here with

Colorado City the Pipers jumped out with a 15 point lead in the first half only to see it diminish to three points at the start of the final period. The Wolves pulled out in front in the fourth period to take the one-point victory.

Milton Davis was high pointer for the Pipers with 23 points.

Davis led the scoring in the Friday night tangle with Winters as he sank 24 points as the Pipers rolled to a 65-50 win over the Blizzards.

Linda Bailey poured in 20 points for the Piperettes in their 42-37 losing effort to the girls from Winters.

The Hamlin B Team was victorious in both outings as they won over Winters 58-23 and Colorado City 54-51 to remain undefeated in loop play.

Steve Feagan Continues to Show Improvement

Steve Feagan is continuing to improve according to reports being received here from his parents, Mr. and Mrs. Bill Feagan, who are with him in Galveston.

Steve is in the burn center at John Sealy Hospital in Galveston for treatment of first, second and third degree burns received in an accident here Jan. 15.

Skin grafting on the third degree burns was scheduled Tuesday but preliminary work was more extensive than expected and took one and one-half hours. Skin grafting was then re-scheduled for today (Thursday) or Friday.

Mrs. Joe A. Simpson went to Georgetown to be with her father, Lott Shell, who suffered a stroke Thursday. All of the six children were in Georgetown with Mr. and Mrs. Shell. Mr. Shell is in good condition.

Post Office to Combine Route Three with One, Two

Effective Saturday, the three rural routes will be combined into two, according to Perry Sparks, local postmaster. The move will eliminate route three with the patrons on this route being split between Routes one and two.

Mr. Sparks said the move follows the retirement of Harold Bonner, Route three carrier, and is an economy move by the Postoffice Department that will save about \$6,000.00 per year.

Mr. Bonner retired January 1 and his route has been handled by a substitute carrier during January awaiting the decision of the Department.

Mr. Sparks added that the carriers, Brad Rowland of Route one and Jack Russell of Route two, will set up their departure time so that while the routes will be longer they still will be able to get the

mail out to all the patrons with as little delay as possible.

He said there may be some confusion at first that could cause a little delay but he expected the people on the end of the routes to get their

mail within half an hour or hour of the time that they have in the past.

All patrons on route three will be notified as to which of the two routes that they will be on beginning Saturday.

Mrs. McBride, District Chairman, Supports Beautification Campaign

Mrs. L. H. McBride, chairman of the beautification division of the Conservation Department of the Mesquite District, Texas Federation of Women's Clubs, is urging all clubwomen in the District to become interested and active in the Keep America Beautiful Campaign now being publicized.

She said that one important way that individuals could help make our country more beautiful was by being careful not to litter our city

streets and highways, parks, beaches, lakes and streams. Each year litter cleanup costs U. S. taxpayers an estimated \$500,000,000 a year, she continued.

To acquaint the public with the problem and the possible solution, Mrs. McBride quotes Eleanor Roosevelt -- "It is impossible to keep a city really clean if there is no self-discipline exerted by the people themselves . . . The problem boils down . . . to personal responsibility . . . We must teach our youngsters . . . to leave public property as it should be left for the enjoyment of the next person . . . Cleanliness is one of the basic things we in the U. S. are supposed to believe in."

The next meeting will be Feb. 1 in the home of Mrs. H. D. Stallcup, with the Valentine dinner to be held Feb. 11 in the home of Mrs. Cecil Sellers.

Basketball

The Old Glory Pirates record now stands at 6-1 in the 12-B after losing a nip and tuck battle with the Rule Bobcats last Friday night. At half time the Pirates were leading by one point and at the close of the third quarter the score was tied. It was only in the last few minutes of the game that Rule moved ahead to win the game 64-59. Larry Flow scored 29 points for the Pirates. Joe Mack Boles was next with 14 points.

The Old Glory girls captured a 47-30 victory over the Rule girls.

The Knowledge of the Lord

Habakkuk 2:14. "For the earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."

The Church is chosen of God to spread the good news that God has a plan to redeem men and reconcile them unto Himself through the vicarious sacrifice of Jesus Christ our Lord. The Church will be so successful in spreading this glorious knowledge in the world that God says the earth will be as full of it as the waters that fill the ocean. Attend church and become a part of this great undertaking.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

STATE CAPITAL HIGHLIGHTS AND SIDELIGHTS—

Connally's State of the State' Message to Keep Legislature Busy

AUSTIN — In Gov. John Connally's "state of the state" message there was enough grist to keep the legislative mill running all of its 140 days.

His proposals drew favorable comments from some, yes-and-no from others, and maybe-so attitudes from other legislators. Their reactions indicate that Connally's recommendations will be debated extensively during the months ahead.

Included in his wide-range message were:

Constitutional Revision—
He suggested that the legislature ask the people at a

Election Laws—
He recommended a strict

special election in September whether they want to elect 450 people, three from each House of Representatives district, to form a constitutional convention and bring back a new constitution for a vote by the people. A commission of 25 members, of which the governor would name 10 and Speaker Ben Barnes, Lt. Gov. Preston Smith and Chief Justice Robert W. Calvert would name five each, would serve as the staff for the constitutional convention. A vote in 1968 could be possible, under Connally's timetable.

Annual Legislative Sessions—
Connally renewed the proposal for sessions of the legislature every year, with the even-year sessions limited to budget-making and emergency proposals from the governor. Trying to decide this spring what money is needed for state agency spending through August, 1969, is too difficult, he declared.

Four Years—
Connally renewed his request for four-year terms for himself and other state officials, despite the voters' rejection of that plan in 1965.

State Parks—
He gave details on his proposal for a vote by the people This fall on issuance of \$75,000,000 in revenue bonds to finance an elaborate system of state park expansion. Most of the money would be used to buy land before its price goes up. An admission fee of \$1 per car to all state parks would retire the bond issue, he said.

Agriculture—
Connally said agriculture is important to Texas, but it is in trouble. The state is spending \$41,000,000 each two years on 15 different agencies. He said he will propose reorganization later to provide coordination and cooperation of efforts to aid agriculture.

Water—
Also recommended was passage of a bill to adjudicate water rights by administrative procedures, through the Texas Water Rights Commission, rather than the more expensive route of going to the courts. He said more

water rights are granted or claimed than there actually is surface water available. This will lead to costly fights when use comes close to supply, hence he proposed the plan advocated by the State Bar to settle the arguments now. He also advocated reorganization, strengthening and financing of the Texas Water Pollution Control Board. This to put a stop to water pollution, plus a program of \$4,000,000 for planning regional waste treatment plants, and grants of \$12,000,000 a year to cities and river authorities for wastewater treatment facilities, dovetailing with federal grant programs.

Banking—
The governor drew quick fire from financial conservatives when he advocated that branch banks be legalized by a vote of the people in the four biggest counties — Harris, Dallas, Bexar and Tarrant. He said the many small banks in these counties simply cannot gather together the money to make the size of loans required by modern Texas industry. So he wants the big city banks to be allowed to have branches, instead of independent banks, in all parts of the four big counties.

Labor—
Connally endorsed some of organized labor's goals — higher unemployment and workmen's compensation payments, and an industrial safety law. He pointed out that more people are hurt on the job each year — 204,000 — than on the highways — 186,000. Death rate in Texas factories is nearly double the average rate for the other

nine major industrial states. So he proposed that the Bureau of Labor Statistics be given the job of promulgating, and enforcing industrial safety rules.

Fine Arts
He suggested financing and permanent status for the Texas Fine Arts Commission, set up in 1965 to preserve and promote fine arts in Texas, headed by John Ben Shepperd of Odessa.

Interest Rates—
State Finance Commission has had a committee working up a consumer finance code. Connally gave it general endorsement, but said he will have detailed recommendations. Report will allow banks to go into the small-loan business, with higher interest rates than the traditional 10 per cent. It also will propose regulation of automobile dealers, department stores, appliance finance companies, and others who charge people for use of money. At present, only those who lend less than \$1,500 at a time, for more than 10 per cent, are under state regulation.

Public Utilities—
Connally proposed the creation of a State Public Utilities Board to take over from the cities the regulation of gas, electric, water and telephone rates; and from telephone companies, regulation of intrastate long distance phone rates.

Crime—
Stiffening of criminal laws, including requiring convicts to serve at least 20 years on life sentences and a third of ALL sentences before parole, was among his recommendations, plus tough new laws against carrying pistols.

Traffic Safety—
He wants more men for the Highway Patrol, at higher pay; driver education to be made available for all junior high schools; 18-year-old minimum driving age without driver education, upon which licenses may be obtained at 16; helmet requirements for motorcycle riders; medical exams to remove unsafe drivers from highways; new tests for all drivers every four years; 12-month license suspensions for those convicted of major traffic offenses; mandatory suspensions for driving while intoxicated; and stronger motor vehicle inspection laws.

Mr. and Mrs. Bob Craig attended the Texas Press Association Mid-winter meeting held in St. Anthony Hotel in San Antonio. Craig, as president of the West Texas Press Association, is a member of the TPA board which met Friday morning. The meeting was concluded with the presentation of Allen Ludden, moderator of CBS Passworld, as Texan of the Year. Ludden was accompanied by his wife, Betty White.

Even the ash tray rides smoother in Chevrolets

When you're down at your dealer's trying out a new Chevrolet, be sure you pull out the ash tray. Notice how nice and easy it glides, never hanging up or even scraping. The reason is, it rides on ball bearings. Four shiny little ball bearings. (Take the tray all the way out and you'll see them.) You say you don't even smoke? Then look at it this way. That ash tray is a symbol of the way we make cars: Paying extra attention to the little things as well as the big ones, as a way of making extra sure your '67 Chevrolet gives you

PIPER PATT— Junior Class Stages Tryouts for Play, 'Home Sweet Homicide'

By Tommy Oliver
Beth Craig
Helen Moore
We really enjoyed the demonstration presented by General Motors Thursday afternoon. It concerned the possibilities of development of new modes of travel and how we could repair our present vehicles through the use of chemicals. During the demonstration we were shown how we might make a new tire to replace a flat one by merely mixing two chemicals and shaking the mixture. How easy this seems compared to our present method!
A new mode of travel for the future, when our oil and natural gas deposits are depleted, is the solar car. We were shown a small scale model of this car during the assembly. It operates on the sun's energy absorbed by several small discs mounted on the hood of the car. High school and junior high students alike enjoyed this demonstration, even though a few of the experiments did not linger on with a refreshing fragrance.

hhs
The Junior Class had tryouts for parts in the Junior Play, "Home Sweet Homicide," Terese Perrin, Philip Simp-

son, Nancy Brown, and Jayne Turner; supporting roles were given to Sally Carlton, James Knabel, Sharon Hawkins, Tommy Oliver, David Wallace, Pat Jenkins, Randy Morgan, Jimmy Hastings, Sammy Ferguson, Janet Carson, Autry Hardy, Agustin Barron, Laquita Long, Donnelle Hill, Bob Clifton and Kathy Moore. Play rehearsals will begin Monday on the first act.

Mid-term and the third six-weeks are over but the results will linger on for several weeks, as both students and parents will take notice of what they are doing in their school work.

hhs
The school paper, "from behind the Green Door", has added a new "feature page" to the publication. The new page is being devoted to a different topic of discussion each week. The page is edited by Randy Smith and Reba Jackson. The first topic was "What do you think about going steady?" The question brought replies such as "I think it is for the birds", "It's all right. You get good lovin'", and "I don't like to go steady. I like to be free."

hhs
The Spanish Club met Monday at 6:30 p. m. in the auditorium. Reba Jackson and Donnelle Hill presented Carlos, the jumping flea which was followed by a Spanish Coca Cola commercial. Taking part in the skits were Agustin Barron, Ruben Marentez, Debra Blanton, Patsy Marentez, Helen Moore, Geneva Ward, and Revonna Robertson.

Aspermont, Hamlin Teams Win Tourney

The Aspermont ninth graders, in double overtime, defeated the local freshmen, 53-49, to be the only outside team to capture a first place in the local Junior High Basketball Tournament held here this past weekend.

In the seventh grade bracket the Hamlin team defeated Stamford, 38-11, to capture top honors while the eighth grade also defeated Stamford, 33-22, for the honors.

In the consolation matches, Rule edged Haskell, 30 to 28 in the seventh grade; Haskell took Rule, 34-30, in overtime in the eighth grade; and Anson mauled Rule, 60-39, in the freshman game.

In the first round, the local seventh graders ran over Rule 37-13, the eighth graders of Hamlin also mauled Rule, 54-27, and the freshmen defeated Rule, 73-50.

Trophies were awarded to the first and second place winners in each of the three groups.

Just talked to Don Kelly's grandmother and she said at this time he is doing just well, he has had a bout with pneumonia along with every thing else but with the prayers of Christian people, good Doctors and nurses and a strong person he will come out ahead.

I visited in Hamlin Hospital a couple of times over the weekend and talked with Mrs. Joiner, she could have been feeling better but she hopes after surgery again this week, she will begin to feel real well again.

Mrs. J. D. McCormick of Roby spent several days in Hamlin Hospital but got to go home Sunday morning.

Mr. and Mrs. Frank Brown of Story, Ark., spent several days in the home of Mr. and Mrs. W. B. Brown.

Mrs. Opal Josey, Mrs. Mary Jones and a friend from Merkel visited in the home of Mrs. J. A. Edwards and other friends on Sunday afternoon.

We also found that Mr. L. T. Warson was in the Hamlin Hospital, but he was doing real well.

If you missed church at the Baptist Church on last Sunday morning then you missed a blessing, the men had charge of all the Service and did a

wonderful job, it is so good to see the men take part.

Mr. and Mrs. Raymond Perkins of Lubbock spent the weekend with his mother, Mrs. Landon Perkins.

Mrs. A. C. Smith was called to Dallas to attend the funeral of her brother-in-law. She and her son, Don and Mrs. Perkins, returned from Dallas Monday.
